SUMMARY

Passionate and detail-oriented Full Stack Developer with hands-on experience in building responsive web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Developed and deployed a full-stack ecommerce platform with authentication, cart, checkout, and order management features. Strong problem-solving skills with knowledge of Java, DSA, REST APIs, MongoDB, and modern frontend technologies. Enthusiastic about learning new technologies and building real-world projects.

EDUCATION

B.E – Computer Science and Engineering | V.S.B College of Engineering Technical Campus
2022-2026 | **CGPA: 8.1**

HSC (Higher Secondary Certificate) | Annai Abirami Matric Hr. Sec. School
2021 – 2022 | **Percentage: 75.5**

SSLC (Secondary School Leaving Certificate) | Annai Abirami Matric Hr. Sec. School
2019 – 2020 | **Percentage: 90.4**

TECHNICAL SKILLS

Languages : Java

Frontend : HTML, CSS, Bootstrap, JavaScript, React.js

Backend : Node.js, Express.js, RESTful APIs, Middleware, JWT Authentication

Databases : MongoDB

Tools/Platforms : GitHub, Visual Studio Code, Eclipse, Postman, IntelliJ IDEA

Soft Skills : Problem Solving, Teamwork, Time Management, Adaptability

PROJECTS

SHOPZY: Full Stack MERN E-Commerce Website

[Link](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, JWT

- Developed a full-stack e-commerce web application using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT authentication, protected routes, product search, cart, checkout, and order management features.
- Designed a responsive user interface using Tailwind CSS and integrated REST APIs with MongoDB Atlas.
- Deployed the frontend on Vercel and backend on Render for full-stack cloud deployment.

INTERVOAI: AI-Powered Mock Interview Platform

[Link](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, JWT, AI APIs

- Built a full-stack AI-powered mock interview platform enabling users to practice HR, Technical, Voice, Video, and Coding interviews in a real-time environment.
- Implemented secure user authentication and authorization using JWT and MongoDB-based user management.
- Developed AI-assisted voice and video interview modules with speech recognition, live transcript generation, performance scoring, and feedback analysis.
- Designed an online coding assessment environment with JavaScript and Java code execution support through Judge0 API integration.
- Created interview analytics, performance tracking, history management, and result dashboards to help users monitor interview readiness.
- Deployed the application using Vercel (Frontend) and Render (Backend) with cloud-hosted MongoDB integration.

INSTAGRAM CLONE

[Link](#)

Tech Stack: React.js (ES6), HTML, CSS, JavaScript

- Built dynamic post feeds, user stories, and image upload functionality using React.js.
- Managed application state for likes, comments, and user interactions using React Hooks.
- Designed reusable and modular UI components following component-based architecture.
- Developed a responsive and interactive social media user interface with modern frontend practices.

ECORAIZ: The Smart Planting System (Open Source)

[Link](#)

Tech Stack: React.js (ES6), HTML, CSS, JavaScript

- Contributed to frontend development for an open-source smart agriculture project focused on automated plant care.
- Developed reusable and responsive UI components using React.js and component-based architecture.
- Implemented dynamic UI behavior and interactive features using JavaScript.
- Built a user-friendly interface to monitor and support smart planting operations.

INTERNSHIP

Web Development Intern | STARK Institutions

- Assisted in developing and maintaining web applications using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with senior developers to enhance website functionality and improve UI/UX design.
- Gained hands-on experience in frontend development, debugging, and code optimization.
- Contributed to improving performance, responsiveness, and cross-browser compatibility

ACHIEVEMENTS

- Solved 400+ Data Structures and Algorithms problems using Java on LeetCode.
- Maintained a 200+ active days streak on LeetCode showcasing consistency and dedication.
- Strengthened problem-solving, logical thinking, and coding skills through regular competitive programming practice.

CERTIFICATIONS

- Java Programming | Infosys Springboard
- Web Development | Udemy
